

A photograph of a large warehouse interior, showing long aisles lined with high industrial shelving units filled with cardboard boxes. The lighting is warm and focused on the central aisle.

# Total Packaging Solution

## ATTRACTIVE VENTURE - JOHOR

### ABOUT US

Attractive Venture (JB) Sdn Bhd is a subsidiary of D'nonce Technology Bhd. The facility was set up in 1991 to meet the increasing demand for custom-engineered, cost effective and environmentally efficient packaging designed products for use in the electronics industries and other industries located at the southern region of Malaysia.

Certified ISO 9001/2000 and awarded the enterprise 50 awards in the year 2008, 2012 & 2014 which recognizes us as one of Malaysia's most enterprising companies.

### WHAT WE DO

Design, manufacturing and conversion of packaging materials for electronics and non-electronics industries, provide one-stop total packaging solutions, sales and distribution of packaging products.

## OUR FACILITIES AND SERVICES

### PRINTING

- Flexography and digital printer
- Big & small MOQs acceptable
- Availability of Various materials

### DIE-CUT

- Customized shapes & design job
- Conversion of raw material to final product shapes
- Availability of Various materials for designing
- Industrial standard testing provided to meet customer's requirements
- Designing prototype and drawing
- Develop the approved idea into packaging design

### GLUING

- Accepting customized job
- White Kraft paper/ brown Kraft paper or PE foam materials

### DESIGNING

- Designing on prototype and drawing
- Develop the approved idea into packaging design

### CNC COMPUTER CUTTING

- Provide CNC cutting for from size (2cm x 2cm) Up To (1.6m x 2m)
- Various kind of materials are accepted
- Perform CNC cutting according to customer's requirement

### PLASTIC VACUUM FORMING

- Injection molding on general plastics and engineering plastics products.
- Vertical insert molding, spray painting, silk screening, hot stamping, ultrasonic and antistatic process, and sub-assembly.
- We cater to the E&E, semiconductor, automotive, office automation, and consumer electronics industries

### PLASTIC INJECTION MOLDING

- Injection molding on general plastics and engineering plastics products.
- Vertical insert molding, spray painting, silk screening, hot stamping, ultrasonic and antistatic process and sub-assembly.
- We cater to the E&E, semiconductor, automotive, office automation, and consumer electronics industries.

### CNC WIRE CUTTING

- EPS foam cutting according to CAD drawing in many shapes and forms.

## PLASTIC

### AIR BUBBLE SHEETS

- Normal grade or antistatic grade available
- Various sizes and thicknesses available

### AIR BUBBLE BAGS

- Normal grade or antistatic grade available
- Various sizes and thicknesses available

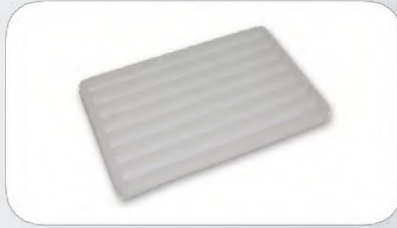

### LDPE ZIPLOCK BAG

- Normal grade or antistatic grade available
- Various sizes and thicknesses available

### LDPE BAGS

- Normal grade or antistatic grade available
- Various sizes and thicknesses available

### PE FOAM SHEET

- Normal grade or Antistatic grade available
- In various densities available
- Conversion to different type of packaging design

### PLASTIC PIZZA BOX

- White Polyethylene
- Colour: Clear
- Thickness: 3mm

### STATIC SHIELDING BAGS

- Available in various sizes and substance
- Packaging for static sensitive devices
- RoHS Compliant
- Electrostatic Discharge (ESD) Protection

### POLYURETHANE FOAM (PU)

- Normal grade or Antistatic grade available
- In various densities and colors available
- Conversion to different type of packaging design

### EXPANDABLE POLYSTYRENE FOAM (EPS)

- In various density
- Customized shapes and sizes
- Conversion to different type of packaging design
- Common use for construction and reclaiming land (sea flooding)

### ETHYLENE-VINYL ACETATE FOAM (EVA)

- Normal grade or Antistatic grade available
- Various densities and colors available
- Conversion to different types of packaging design

### PLASTIC VACUUM FORMING TRAY

- PC, PP, PVC, PET, PE, PS, ABC etc
- Available in various thickness

## PAPER

### CORRUGATED PIZZA BOX

- Virgin / Recycled / White Kraft Paper
- Single wall
- In various thicknesses and colors available
- Lightweight and can be recycled
- Printing: Based on design

### CARTON BOX

- Recycled Kraft
- Color: Brown
- Type of Joint: Glue
- Thickness: 7mm

### TUCK BOX

- Recycle Kraft
- Color: Brown
- Thickness: 3mm

### STORAGE BOX

- Recycled Kraft
- Color: Brown
- Thickness: 3mm

### PRINTED PAPER TUBE

- Kraft Paper
- Color: Brown
- Thickness: 3mm
- Dimension: 75mm

### KRAFT PAPER SHEET

- Kraft Paper
- Color: Brown

### NESTING PARTITION

- Single/double wall
- Recycled materials
- Substance: Corrugated board, Chipboard, PP materials
- In various thicknesses and colors available
- Lightweight and can be recycled

### PAPER CORE

- Recycle / White Kraft Paper
- Color: Brown, White
- Various thicknesses are available
- Printing: Based on design

### PAPER REEL

- Virgin / Recycled / White Kraft Paper
- Color: Brown, White
- Single / Double wall
- Various designs are available
- Printing: Based on design

### PAPER EDGE BOARD

- Recycled materials
- Thickness: 2 ~ 6mm
- Increase the protection strength to product
- Compression and moisture resistant

### PAPER PALLET

- Recyclable and environment friendly
- Lightweight and stand load up to 1.5 tons
- No fumigation and heat treatment required

### PAPER CRATE

- Lightweight and environment friendly
- No fumigation and heat treatment required

### SLIP SHEET

- Recyclable material
- Cost-Effective & Eco-Friendly
- Minimum space required for the storage

## OTHERS

### TAPES

- Type: OPP tape, double-sided tape, masking tape, protection tape, foam tape
- Authorised dealer for 3M, Tesa & other branded tape product

### DIE-CUT TAPE

- Die-cut various kind of material
- Based on customer's design

### WOODEN PALLET

- Good for industrial heavy-duty purposes
- Available in different design and size
- Fumigation and heat-treatment available
- Meet international regulations on trade (ISPM)

### WOODEN CRATE

- Good for industrial heavy-duty purposes
- Available in different design and size
- Fumigation and heat-treatment available
- Meet international regulations on trade (ISPM)
